

National Framework Implementation Roadmap

February 2023

-  Components relating to Training and assessment requirements for prevocational training programs
-  Components relating to National standards and requirements for prevocational training programs and terms
-  Components relating to AMC domains and procedures for assessing and accrediting prevocational training accreditation authorities

PGY1 components implemented in 2024. End of 2024 sign off against new registration standard including 4 clinical experience categories, global decision by an assessment review panel required. PGY2 components can be implemented in 2024 or 2025 by postgraduate medical councils and health services.
